

Fleet Safety

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and worker's compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIOSHA

2 Why you need this Workshop . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (2003 Liberty Mutual Safety Index.)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

Regardless of the industry, vehicular accidents are a major cause of injuries and death in the workplace. Do you have a driver safety program in place to actively train and test your drivers? Do your drivers have defensive drivers training? Do you investigate every vehicle accident/incident no matter how minor? If you answered no to any of these questions, attending this presentation may provide you the information you need to set up an effective fleet safety program. Statistics is also part of this presentation.

Agenda

*We offer a flexible
program agenda
to emphasize the
topics you
want most.*

- ▶ Michigan and National Statistics for Vehicle Accidents
- ▶ Sample Fleet Safety Programs to Implement
- ▶ Workman's Cost Comparisons for Vehicular Accidents
- ▶ Causes of Accidents
- ▶ Vehicle Inspection Items - Employee Responsibilities

Facilitator

Karen was appointed to the Consultation Education and Training Division of MIOSHA in 1992. She is an occupational safety consultant working in the Washtenaw, Oakland, Wayne and Livingston counties providing consultative advice and training opportunities for both employers and employees. Prior to her position at the Bureau, Karen worked as a Loss Control Consultant in the insurance industry, which gave her insight to workers' compensation, property and liability issues while assisting clients with their safety programs.

Karen graduated from Grand Valley State University with a Bachelor's degree in Occupational Safety and Health.

Presenters: Karen Odell and Rob Stacy, Occupational Safety Consultants, MIOSHA, CET Division.

Karen Odell
*Occupational Safety Consultant,
MIOSHA, CET Division*
